The Lighthouse of Alexandria

- The Lighthouse of Alexandria stood on a small island near Alexandria to help boats at night. It was built at the time of King Ptolemy. He started building it in about 290 BCE. He finished building it in about 283 BCE. Many earthquakes damaged the lighthouse. When the famous traveller Ibn Battuta visited Alexandria in 1349, he could not enter the lighthouse. It was too dangerous. By 1480, there was no lighthouse. The Sultan of Egypt built a fort where the lighthouse once stood. He used some of the stones from the old lighthouse to build it. Today, visitors can see Fort Qaitbey when they visit Alexandria.
- The Muntazah palace is by the sea in Alexandria. King Abbas the 2nd built this as a home for himself in 1892.It has two towers and high walls around it on three sides.The other side faces the sea.You can't go inside the building now, but you can visit the beautiful gardens.
